

Akademy 2006

How to Make Your Program Popular

Why do You Program for KDE?

- **Compulsion?**
- **Fame?**
- **Nice community?**

- **To have people use your program?**
 - **This presentation is for you!**

**Some terms of the trade
(Wikipedia)**

- **Marketing**

- ...a [...] function associated with [...] researching, developing, promoting, selling, and distributing a product or service.

- **Promotion**

- ...involves disseminating information about a product, product line, brand, or company.

The four P's of Marketing

- **Product**
 - **Servicing the needs of the users**
- **Pricing**
- **Promotion**
 - **How to make people aware of the product**
- **Placement / distribution**
 - **How the product reaches the user**

Promotion subcategories

- **Advertising**
- **Personal selling**
- **Sales promotion**
- **Publicity / public relation**

Why does a user run a certain program?

- **User has to need it**
- **User has to know about it**
- **User has to have access to it**
 - **It has to be on his computer**
- **User has to like it**
 - **...or be the best / only one of its kind**

Channels for KDE programs

- **Website/SVN**
 - (--> **KDE Package**)
 - > **Linux Distribution**
 - (--> **Default**)
 - > **User**

- **Website / SVN**
 - > **Download**
 - > **User**

Positioning

- **“How you want the users to think about your product.”**
- **Quickly now...**
 - **Name a safe car**
 - **Name a really luxurious car!**

- **“How you want the users to think about your product.”**
- **Quickly now...**
 - **Name a safe car**
 - **Name a really luxurious car!**
- **Did you pick Volvo and Rolls Royce?**

Positioning (2)

- **How did KOffice position itself?**
 - **OpenOffice can do more**
 - **OpenOffice is already huge on the market**
- **...but**
 - **KOffice has more (most!) components**
 - **KOffice has much faster development**

- **Different types of positions**
 - **Fastest**
 - **“Best”**
 - **Cheapest**
 - **Safest**
 - **High Tech**
 - **Local**
- **You have to think really long term here!**

- **We chose:**

“The Next Big Thing!”

- **Leverages our advantages**
- **Is long-term viable**
- **Is a good place to be**

Promotion Channels

- **Blogs**
- **Tech news websites**
 - **dot.kde.org!**
 - **Slashdot, digg, OSNews, Linux Weekly News, ars technica, etc, etc**
- **Newspapers / Magazines**
- **Conferences**
- **Personal contacts!**

Promotion targets

- **Users**
- **Developers**
- **Linux distributions**
- **Journalists**

All these need different approaches!

Lower the Barriers!

- **...to usage**
 - **Usability**
 - **Documentation**
 - **Integration**
- **...to adaption**
 - **Get it into a distribution!**
 - **Make it well-known**

Lower the Barriers! (2)

- ...to developers
- JJ's (Junior Jobs)
- IRC channel
- API docs
- Mentors

The screenshot shows a Konqueror browser window titled 'The KOffice Project - Devel Junior Jobs 2006 - Konqueror'. The address bar shows the URL 'http://www.koffice.org/getinvolved/junior-jobs.php'. The page content includes a navigation menu on the left, a main heading 'Devel Junior Jobs 2006', and a table of tasks.

Inform

- Home
- KDE Home
- News
- Information
- FAQ
- Add-ons for KOffice
- People
- Mailing Lists
- Support KOffice

Latest Releases

- KOffice 1.5.2
- KOffice 1.6-beta1
- Security

KOffice Applications

- KOffice Workspace
- KWord
- KSpread
- KPresenter
- Kexi
- Kivio
- Karbon14

Devel Junior Jobs 2006

[Doc Junior Jobs | Junior Jobs Done]

It is preferred to use **KOffice svn trunk code** to work on JJ, which is the next coming 2.0 release. You can find some information on how to build it on the [Install KOffice unstable from svn page](#).

If you need help, you can join members of the KOffice team on IRC, server `irc.freenode.org`, port 6667, channel `#koffice`.

Task Description	Contact	Date Target	Name of Applicant
Karbon: http://bugs.kde.org/show_bug.cgi?id=109189	Rob Buis	30th January December	-
Karbon: fix units http://bugs.kde.org/show_bug.cgi?id=115010	Tim Beaulen	30th December 2006	-
Karbon: Usability: The color and opacity bars in the color chooser palette are backwards. http://bugs.kde.org/show_bug.cgi?id=115213	Tim Beaulen	30th December 2006	-
KChart: Code structure: put the wizard and config dialog in a "dialogs" subdirectory. http://bugs.kde.org/show_bug.cgi?id=117960	Inge Wallin	30th December 2006	-

How to talk to journalists

- **Call them! :-)**
- **Be persistent**
- **Make their job easy (Lower the barrier)**
 - **Write their articles for them**
- **Produce press releases**
 - **Maybe even a whole press kit**

Getting started

- Easy start
- One step at a time
- Blogs (easy)
- Good web page
- Grab the chances that occur

Getting warmed up

- Write articles
- Write news items
- Do special events
 - Ex: a GUI competition for the next generation

Advanced stuff

- **Create a marketing plan**
 - **Define a position**
 - **Write down goals and actions**
- **Have somebody responsible**
 - **Shouldn't do all the work alone**
- **Create community**

What's next for KOffice?

- **Release of 1.6**
 - **Press release**
 - **Taking the position into account!**
 - **Tour on the website**
 - **Tech news websites**
- **Release of 2.0 (rewrite with Qt 4.2)**
 - **Start talking to distributions to get it in**
 - **Define niches where KOffice is the best (children? other?)**
